

Aspiring entry-level full-stack developer, motivated and enthusiastic about applying my technical skills in software development and debugging. My ultimate aim is to assist the team in achieving their goals by creating quality and reliable software solutions.

SKILLS

- **Communication:** Clear and concise communicator, adept at conveying complex technical ideas to diverse audiences, fostering collaboration within cross-functional teams.
- **Problem-solving:** Strong analytical skills, excelling in resolving challenges within software development to enhance project efficiency.
- **Collaboration:** Collaborative team player, valuing diverse perspectives and contributing to a positive work environment to achieve collective goals.
- **Time Management:** Proven ability to manage time effectively, set realistic deadlines, and consistently meet project milestones for timely software delivery.
